

KRISHNA SAI MEDA

+91-6281174425 | krishnasaimedag@gmail.com | linkedin.com/in/krishnasai-meda | Dharmavaram, AP, India

PROFESSIONAL SUMMARY

Computer Science graduate specializing in Cybersecurity and Cloud technologies with hands-on experience building and deploying scalable applications. Proficient in Python scripting, REST API development, and cloud infrastructure. Skilled in security practices including encryption, hashing, and access control. AWS Certified Cloud Practitioner with experience in blockchain development, project management, and technical documentation.

EDUCATION

Sri Venkateshwara College of Engineering

Tirupati, AP, India

Bachelor of Technology – Computer Science & Engineering (Cyber Security)

2022 – 2026

– CGPA: 8.34 / 10

Government Polytechnic Dharmavaram

Dharmavaram, AP, India

Diploma in Computer Engineering

2020 – 2023

– Percentage: 78.65%

TECHNICAL SKILLS

Cloud Platforms: AWS (Lambda, S3, EC2, API Gateway, DynamoDB), Supabase (PostgreSQL)

DevOps & IaC: Docker, Kubernetes, Terraform, Ansible, CI/CD Pipelines

Programming Languages: Python (Flask), JavaScript, Java, C/C++, Solidity, Bash

Web & APIs: REST APIs, HTML/CSS

Security: AES-256, SHA-256, JWT, Cryptographic Hashing, OWASP Basics, Logging

Blockchain: Ethereum, Web3.py, Smart Contracts, Ganache

Tools & Platforms: Git, GitHub, Linux, VS Code

WORK EXPERIENCE

Trivia Technologies

Remote

Recruiter & Project Manager

2025

- Managed end-to-end project execution including task allocation, deadline tracking, and cross-functional coordination.
- Streamlined internal workflows through process optimization and issue resolution, improving overall team throughput.
- Maintained clear technical documentation and project reports to ensure operational transparency.
- Led sourcing, screening, and onboarding pipelines for technical hiring.

Madhavi Info Tech

Hybrid

Student Intern

2022 – 2023

- Developed Python-based applications with a focus on secure coding practices and reliability.
- Integrated AES encryption into GUI applications to protect sensitive data at rest.
- Collaborated with senior developers to troubleshoot and resolve application-level issues.

PROJECTS

AWS-Based Serverless Student Feedback System | Cloud Backend Project

2025

- Designed and deployed a serverless architecture using AWS Lambda, API Gateway, DynamoDB, and S3, improving scalability and eliminating infrastructure overhead.
- Developed RESTful APIs in Python for secure data submission and retrieval, following cloud security best practices.
- Built a real-time admin dashboard for monitoring and logging feedback data.
- Managed infrastructure configuration and deployment on AWS (EC2, S3, Lambda).
- **Technologies:** Python, AWS Lambda, API Gateway, DynamoDB, S3, EC2

- Secure Anonymous Feedback & Complaint System | Blockchain & Security Project2026
- Built a decentralized application (dApp) using Ethereum smart contracts and a Python Flask backend, ensuring data immutability and audit transparency.
 - Implemented AES-256 encryption and SHA-256 hashing for identity protection and data integrity.
 - Designed role-based access control (RBAC) for Admin and Moderator roles with controlled de-anonymization workflows.
 - Integrated Supabase (PostgreSQL) for structured off-chain data storage alongside on-chain records.
 - **Technologies:** Python (Flask), Solidity, Ethereum, Web3.py, Supabase, AES-256

CERTIFICATIONS

AWS Certified Cloud Practitioner <i>Cloud fundamentals, AWS core services, billing, and security</i>	Amazon Web Services <i>Issued 2025</i>
Salesforce AI Associate <i>AI concepts, CRM AI features, and ethical AI usage</i>	Salesforce <i>Issued April 2025</i>
IoT, Cybersecurity & Safety <i>Network security, IoT protocols, and safety frameworks</i>	NPTEL <i>Completed</i>

LEADERSHIP & ACTIVITIES

Head of Operations – Department Association <i>Technical Event Lead</i>	Sri Venkateshwara College of Engineering <i>2024 – 2025</i>
– Managed and executed technical workshops and events, handling end-to-end logistics, scheduling, and team coordination. – Coordinated with faculty and student teams to ensure smooth operational workflows.
